Dear Hiring Manager:

I am applying for the position of UNIX/AIX Administrator

As a Sr. Systems Administrator I have extensive experience creating custom software for ECAD applications. I have developed software to create interfaces from our ECAD system to our corporate PDM environment. Of all of my experiences in System Admin and Applications Support, I get the most enjoyment from creating software tools that simply difficult and involved tasks

I plan on relocating to Springdale, AR in the next 6 to 12 months. I am hoping to find a position that will allow me to continue to expand my programming capabilities.

Please consider my resume as application for this position.

Sincerely,

Michael J. Wallace
